

**USASOC Senior Engineer Plans and Operations Officer  
Reserve Drilling IMA (DIMA) Position  
Rank: Colonel/Senior Lieutenant Colonel**

The duties of the USASOC Senior Engineer Plans and Operations Officer include planning and executing engineering work required to support subordinate units within USASOC, including Special Forces Command, 75<sup>th</sup> Ranger Regiment, 160<sup>th</sup> Special Operations Aviation Regiment, 95<sup>th</sup> Civil Affairs Brigade, 4<sup>th</sup> Military Information Support Operations Brigade, US Army John F. Kennedy Special Warfare Center and School, and the 528<sup>th</sup> Sustainment Brigade. Each is transforming while simultaneously deploy to multiple theaters. As units deploy, the Senior Engineer Plans and Operations Officer orchestrates required work with the installation, the unit, and USACE, ensuring returning units have sufficient facilities available to meet their needs for refit, retraining and redeployment. Additionally, this officer serves as the deputy command engineer responsible for all reserve component personnel within the directorate. Finally, the DCS-ENGR staff is responsible for several construction projects in the CENTCOM AOR and provides engineer reach-back capability to SOF forces engaged in combat.
